PROFESSIONAL SUMMARY

Experienced Full Stack Developer adept in PHP frameworks (Laravel, Codeigniter, Slim) and Node.js, with expertise in front-end technologies (HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, Vue JS, Nuxt JS, jQuery, AJAX) and databases (MySQL, MongoDB, PostgreSQL). Proficient in deploying cloud services on AWS. Seeking opportunities to leverage expertise in web development and contribute to innovative projects.

EXPERIENCE

Full Stack Web Developer, 10/2024 - Current
Fursan Najd Sports Co, Riyadh, Saudi Arabia

- Manage and enhance Falcon Gym Management System (Laravel & MySQL), delivering new features and optimizing system performance.
- Develop and maintain RESTful APIs supporting mobile apps and Nuxt.js-based web frontend.
- Built and launched a Nuxt.js website, improving user engagement and accessibility.
- Developed a real-time attendance system using Node.js, WebSocket's, and Bio Star device integration for instant attendance tracking.
- Integrated Falcon system with finance systems such as Odoo for automated customer invoicing.
- Implemented payment gateways for secure transactions.
- Lead full-stack development for both admin dashboard and customer-facing gym website.
- Optimize databases, conduct code reviews, and troubleshoot application issues to ensure reliability and scalability.

Full Stack Developer, 03/2022 – 09/2024
Excellent Solutions Co, Riyadh, Saudi Arabia

- Developed and maintained dynamic web applications utilizing PHP frameworks including Laravel, Codeigniter, and Slim, ensuring high performance and scalability.
- Implemented responsive front-end interfaces using HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, Vue JS, jQuery, and AJAX, optimizing user experience across various devices and screen sizes.
- Integrated with and managed relational databases such as MySQL and PostgreSQL, as well as NoSQL databases like MongoDB, ensuring efficient data storage and retrieval.
- Designed and implemented RESTful APIs to facilitate seamless communication between front-end and back-end systems, enabling efficient data exchange and manipulation.
- Utilized Node.js for server-side scripting and building scalable network applications, enhancing application performance and responsiveness.
- Collaborated closely with cross-functional teams including designers, product managers, and QA engineers to translate business requirements into technical specifications and deliver high-quality solutions on time and within budget.
- Deployed and managed web applications on cloud platforms including Amazon Web Services (AWS), leveraging cloud services such as EC2, S3 and RDS to ensure reliability, scalability, and security.
- Conducted comprehensive code reviews, debugging, and performance optimization to ensure the quality, reliability, and efficiency of codebase, adhering to coding standards and best practices.

- Stayed abreast of emerging technologies, industry trends, and best practices, continuously enhancing technical expertise and contributing to the improvement of development processes and workflows.

Web Developer, 08/2020 – 03/2022
Excellent Solutions Co, Riyadh, Saudi Arabia
- Developed and maintained both frontend and backend components of a SaaS application using PHP, JavaScript, and MySQL.
- Created responsive, user-friendly interfaces using HTML5, and CSS3, ensuring cross-browser compatibility and mobile responsiveness.
- Integrated AWS Lambda functions to handle asynchronous processing tasks, improving the application's efficiency and reducing server load.
- Integrated payment gateways (PayPal, Stripe) and third-party APIs, enabling seamless transactions and data synchronization.
- Implemented CI/CD pipelines using Jenkins and Docker, reducing deployment time and minimizing manual errors.
- Automated deployment processes and server provisioning using AWS Cloud Formation, enabling rapid scaling during peak traffic periods.

PHP Developer, 05/2017 – 08/2020
Excellent Solutions Co, Riyadh, Saudi Arabia
- Assisted in the development and maintenance of PHP-based web applications.
- Collaborated with senior developers to troubleshoot and debug existing applications.
- Developed and integrated user-facing features using PHP, HTML, CSS, and JavaScript.
- Utilized Git for version control and collaborated on projects using GitHub.
- Gained hands-on experience with the Laravel framework and RESTful APIs.

Technology Manager, 12/2016 - 04/2017
Loggey, Riyadh, Saudi Arabia
- Conduct in-depth training sessions on shelved products, focusing on POS systems implementation and integration.
- Provide tailored product demos to clients, highlighting key features and benefits of POS systems.
- Manage installation and maintenance of operating systems and application software for POS systems.
- Integrate hardware and software components to ensure seamless operation of POS systems.
- Develop comprehensive product manuals for POS systems setup and operation.
- Maintain website content related to POS systems updates and support resources.
- Offer prompt online assistance to clients for POS systems inquiries and troubleshooting.

PROGRAMMING LANGUAGES

PHP	Python
NodeJS	GraphQL

DATABASES

MySQL	MongoDB
SQL	PostgreSQL

FRONT END

Html	JavaScript
CSS	jQuery
Bootstrap	Ajax
Tailwind CSS	Vue JS
Daisy UI	Nuxt JS

FRAMEWORKS

Laravel	Codeigniter
Slim	Serverless
Express	

TOOLS

Amazon Web Services	Rest APIs
Firebase Cloud Messaging	WebRTC
Apple Push Notifications	WordPress
Google Charts	Wix
Twilio Messaging	Composer
GitHub	Ansible
Jenkins	Docker Hub

INTEGRATIONS

Stripe API	PayPal API
Pay Tabs	Bio Star
Odoo	

EDUCATION

Virtual University of Pakistan, Lahore, Pakistan, 2016

BS: COMPUTER SCIENCE
